Code of Ordinances in Indialantic, Florida, Sec. 17-106.1 Sign Plan and Construction Standards: Applications for permits shall be accompanied by a dimensioned plan, sketch or scale drawing clearly showing the proposed sign with lettering superimposed thereon in correct proportion and type style and with notation of the type of materials and lettering. A dimensioned plan, sketch or scale drawing shall be furnished, clearly showing the proposed location of the sign, either on a plot plan for a detached sign, or on an elevation drawing of the building for an attached or painted sign. Locations and types of lighting shall be given. All signs must be aesthetically pleasing, artistically created, and of professional quality. All signs must be constructed to conform to Sections 2302, 2303 and 2304, in their entirety, of the Standard Building Code, unless otherwise modified herein. All signs shall be able to withstand the force of one hundred twenty (120) mile per hour winds. The top of the poles are part of the design of the sign. If a sign of more than thirty-two (32) square feet in area is allowed by variance, then the construction plans shall be approved by, and bear the seal of, the Florida Structural Engineers Society.

APPLICANT'S AFFIDAVIT

Application is hereby made to obtain a permit to do work and installation as indicated. I certify that no work or installation has commenced prior to issuance of a permit and that all work will be performed to meet the standards of all laws regulating construction in this jurisdiction. I understand that a separate permit must be obtained for electrical work.

OWNER AFFIDAVIT: I certify that all the foregoing information is accurate and all work will be done in compliance with all applicable laws regulating construction and zoning.
