

INDIALANTIC *RECORD*

August 2006

*Rachel Akers and Nance DeVault present
two AEDs to Police Chief Troy Morris*

American Heart Association Donates AEDs

Representatives of the Florida affiliate of the American Heart Association donated two Automated External Defibrillators (AEDs) to the Indialantic Police Department.

This donation is part of an effort by the heart association and Health First Heart Institute to award law enforcement agencies with AEDs and associated training funds. The Indialantic Police Department, as one of eleven law enforcement agencies to receive the units, received two Automated External Defibrillators. These units will be placed in patrol cars. With the two AEDs previously donated to the Town by the American

Heart Association, each patrol vehicle will now be equipped with a unit.

An AED is a small, portable device that sends an electric shock to the heart and restores a patient's heart rhythm to normal levels before a rescue crew arrives on the scene. Each year sudden cardiac arrest claims over six hundred lives in Brevard County and 340,000 nationally. Approximately 45,000 to 50,000 lives could be saved annually if AEDs were more widely available, according to the American Heart Association.

Local jurisdictions receiving the units are required to ensure that non-medical personnel using the AEDs are trained, that local Emergency Medical Services are aware of the location of the AEDs, that a doctor oversees each AED for quality control, and that a maintenance plan is in place to keep the AEDs in working order.

Orlando Park Improvements Near Completion

Four hundred linear feet of sidewalk were recently added to Orlando Park improving access to the many pieces of play equipment within the park. The walkway is part of a comprehensive improvement package that includes replacing the asphalt bike path along the west side of the park, resurfacing the basketball courts, constructing a

gazebo in the southwest corner of the park, and adding play equipment. Improvements nearing completion include installation of a track slide and a bench swing.

The Town Council secured fifty thousand dollars in Florida Recreation Development Assistance Program (FRDAP) monies from the Florida Department of Environmental Protection. State Representative Mitch Needelman provided a ceremonial check representing these funds to the Council in August, 2005.

Don Bo, Inc. installs a sidewalk around the play area in Orlando Park

The Town is not expected to seek FRDAP monies in the upcoming funding cycle for Orlando Park; however, grant applications may be submitted for improvements to Nance Park and Riverside Park

RECENT COUNCIL ACTION

June 20, 2006 Meeting

- approved the Auditor Selection Committee's ranking of audit firms and authorized the Town Manager to negotiate a contract with the number one firm – Hoyman, Dobson & Co., PA
- approved budget adjustments for FY-06
- authorized the Brevard Watercolor Society to hold an art show in Nance Park March 24-25, 2007

- set tentative millage rate for FY 06-07 at 4.3313; set date for first public hearing on the millage rate and budget for 7:00 pm on September 5, 2006; set date for second public hearing for 7:00 pm on September 19, 2006; set tentative budget workshop for 6:00 pm on August 15, 2006
- agreed to request that FDOT reduce the speed limit on Fifth Avenue from 35 mph to 30 mph
- approved Ordinance 06-12 on first reading regulating where sexual offenders/predators can reside

Atlantic Development of Cocoa, Inc. replaces the failing metal stormwater pipe at 1105 S. Riverside Dr. The Town has approximately 38,000 linear feet of 45 year old metal pipe that needs to be replaced.

POLICE BEAT

On June 14, 2006, the Indialantic Police Department responded to the Regions Bank, located at 500 North Miramar Avenue, in reference to a report of a bank robbery that had just been committed. During the robbery, the suspect implied he had a firearm and fled the bank with a little over \$3000.

During the investigation, the police department turned to the citizens of the Town of Indialantic and asked for assistance in identifying the suspect through composite sketches, photographs and multiple

PLEASE....PLEASE....PLEASE

Please help us to help you. Posting your house number on your property is not only a requirement of the Town code, it can be of great assistance to you. Our code maintains the following:

The house number of every residence and commercial establishment shall be prominently displayed on the face of the building, or on the mailbox or other structure near the street. The numbers shall not be more than seventy-five (75) feet from the property line, and shall be clearly visible from the street.

Numbers may be numerals or script, and shall

interviews with several witnesses. Several messages were broadcast using the Town's Code Red Community Warning System. In true community spirit, town residents stepped up and aided the police department by providing everything from hunches to critical information. In fact, it was information that was obtained from town residents that gave the police department a major break in the case and ultimately led us to the suspect.

On June 27, 2006, the suspect was arrested during a traffic stop on North Miramar Avenue, ironically one-half block away from the bank he robbed. He was interviewed and confessed to the crime.

While the Town of Indialantic may not be growing geographically, we are certainly being affected by the enormous growth of other nearby cities. The police department has seen an increase in the number of calls for service and residents are reminded to stay vigilant and report suspicious activity immediately. It is nice to know, however, that the Town has residents who still have a sense of community and can be counted on to assist this agency when needed.

The Indialantic Police Department is committed to excellence and to providing the best possible service for the town's residents, business owners and visitors. With continued support from the community, we can and will maintain that level of service.

Detective Michael Connor

IT'S SEA TURTLE SEASON

If you live on or near the beach it's time to turn off your lights. Artificial lighting can distract turtle hatchlings away from their ocean destination. There are many new products on the market addressing turtle-friendly lighting options. For more information about these products, call Ron Cassedy at 984-5224. Please help save our turtle population.

Numbers may be illuminated or lit up, but shall be in contrast with the color of the immediate background on which they are mounted. The numbers shall be at least two and one-half (2 ½) inches in height, for residences, and three and one-half (3 ½) inches in height for commercial premises.

Prominently posting your house number can assist the Town's fire, rescue, or police services in responding to a call at your residence. Additionally, it can help repair and delivery personnel locate your residence. So, help us to help you---ensure that your property has the street number posted as required.

Cliff Stokes, Code Enforcement

Public Works Update – Ron Cassedy

There was a time when small piles of yard waste could be placed by the street for collection. However, with the implementation of the automated cart system residents are requested to place yard waste inside the cart for collection. Harris Sanitation is using the automated side load vehicles rather than rear loaders to clear the town of small and medium size piles of yard waste. Using the 96 gallon container should expedite the removal of the yard waste. Huge piles will still be collected by the clam truck.

Please remember the following procedures for the cart system:

- ü Place carts curbside with the opening facing the street*
- ü Bag and tie all household garbage before putting it in the cart*
- ü Fill carts only enough to allow the lid to close*
- ü Place carts away from mailboxes and trees*
- ü When placing two carts at the curb , place them 2 feet apart so the truck can service each one safely*
- ü Break down boxes before placing them in the cart*
- ü Do not bag yard waste. Place leaves, pine needles, palm fronds (21 or fewer), tree trimmings and small branches (smaller than 4 feet in length) in the cart*
- ü Do not place dirt in the carts*
- ü Place only small amounts of rock, brick and tile in the carts*
- ü Contents in carts must be less than 200 pounds*

For bulk pickup, white goods and large piles of trees and yard waste please call 723-4455 to schedule pickup.

UPCOMING MEETINGS

Town Hall

will be closed Monday, September 4th, for Labor Day

ü **Qualifying dates** for the November 7, 2006 election will be August 21- September 1, 2006. Seats to be filled are: Mayor, currently held by Daniel Trott, Council Seat 2, currently held by Mike McCabe, and Council Seat 4, currently held by Dave Berkman. Packets will be available in the Town Clerk's office

ü The annual **Halloween Party** will be held October 28, 2006 from 4 pm to 8 pm. Anyone interested in volunteering to work the games and refreshment stations should contact Loren or Gabrielle Strand at 956-3113 or Jan at 723-7788

Conserving Water is Everyone's Business – from the St. Johns River Water Management District

Florida's water supply is dependent upon fickle weather patterns – periods of abundant rain followed by periods of drought. Although Florida receives an average of 50 inches of rain per year, about 65 percent of that evaporates. Only a relatively small percentage of total rainfall replenishes the aquifer from which we draw 90 percent of public supply. **How you can help:**

Regularly examine pipes and fixtures for leaks; repair all leaks immediately

Landscape with plants and grasses that require little water. Your local cooperative extension agent can assist you in developing a water-conserving landscape plan to best suit your needs.

Use efficient landscape irrigation techniques including drip irrigation, soaker hoses or sprinklers regulated with automatic timers.

Avoid hosing down sidewalks, driveways and parking lots. Sweep them instead.

AUGUST
